

# **Atlas of Black Crappie Waters in Ontario**

**July, 2002**

## Preface

This document provides a listing of Ontario waters currently known to contain black crappie (*Pomoxis nigromaculatus*). Information for this listing has been derived from a variety of sources including the provincial fisheries database of lake and streams surveys (AHIS) and fisheries assessment projects (FISHNET). Several publications and checklists were also reviewed (see References). A draft listing of waterbodies containing black crappie was also reviewed by field biologists across the province to confirm the current status and make any revisions necessary.

A total of 273 waterbodies were identified during this exercise (Table 1). Waterbodies range in size from streams to individual Great Lakes. A map of black crappie distribution in Ontario is also included in this document. Black crappie are found predominately in the southern and northwestern portions of Ontario but are rapidly expanding their range.

Table 1. Ontario waterbodies containing black crappie. Information has been summarized in terms the Ministry of Natural Resources district in which the waterbody is located.

MNR District	Lakes/Reservoirs	Streams/Rivers	Total
<u>Southcentral Region</u>			
Algonquin	1	0	1
Aurora	11	1	12
Aylmer	5	30	35
Bancroft	1	0	1
Guelph	9	14	23
Kemptville	36	19	55
Midhurst	11	3	14
Parry Sound	29	4	33
Pembroke	1	0	1
Peterborough	48	4	52
<b>Subtotal</b>	<b>152</b>	<b>75</b>	<b>227</b>
<u>Northeast Region</u>			
Chapleau	0	0	0

Hearst	0	0	0
Kirkland Lake	0	0	0
North Bay	2	0	2
Sault Ste. Marie	1	0	1
Sudbury	2	2	4
Timmins	0	0	0
Wawa	0	0	0
<b>Subtotal</b>	<b>5</b>	<b>2</b>	<b>7</b>
<u>Northwest Region</u>			
Dryden	0	0	0
Fort Frances	15	0	15
Kenora	17	1	18
Nipigon	2	0	2
Red Lake	0	0	0
Sioux Lookout	0	0	0
Thunder Bay	0	0	0
<b>Subtotal</b>	<b>34</b>	<b>1</b>	<b>35</b>
<b>Great Lakes</b>	<b>4</b>	<b>0</b>	<b>4</b>
<b>Provincial Total</b>	<b>195</b>	<b>78</b>	<b>273</b>

Some rivers (e.g. St. Lawrence etc.) have been listed under more than one MNR district since the distribution of black crappie encompasses more than one administrative jurisdiction. In these instances, location information (e.g., latitude and longitude) will differ. These waters have only been enumerated once for the purpose of compiling Table 1, however. The same is applied to waterbodies such as bays which are already part of larger waterbodies ( e.g., Great Lakes).

There are undoubtedly waters containing black crappie which have been missed or which have yet to be inventoried. This atlas should be kept updated as new information becomes available.
